Profile Summary

Full-Stack Developer with expertise in building modern, responsive web applications using React.js, Next.js, Node.js, and Tailwind CSS. Skilled in JavaScript, TypeScript, RESTful APIs, and AI integration with OpenAI and Gemini. Proficient in MongoDB, Firebase, and deploying apps on Vercel, Netlify, and AWS. Strong focus on UI/UX, performance, and clean code with tools like Shadcn, Framer Motion, and Figma. Fast learner, collaborative, and detail-oriented.

Technical Skills

Frontend: React.js, Next.js, Vite, Tailwind CSS, HTML5, CSS3, JavaScript, TypeScript, React Native, UI/UX Design, Shadcn, Framer Motion.

Backend: Node.js, Express.js, RESTful APIs.

Database & Cloud: MongoDB, AWS.

Tools & DevOps: Git, GitHub, Vercel, Netlify, Postman, Figma, Adobe XD, VS Code.

Projects

Portfolio || Web Application

- Developed a dynamic and responsive portfolio web application showcasing my skills in frontend development and UI/UX design. The app features a clean, modern interface built with React JS, Tailwind CSS, Framer Motion. Ensuring a smooth and engaging user experience.

Using : React.js, Tailwind CSS, Framer Motion.

Bengal Coding Academy — Online Programming Learning Platform

Bengal Coding Academy is an online platform dedicated to delivering high-quality programming courses and tutorials tailored for aspiring developers. As a full-stack developer, I'm building a responsive and scalable web application from the ground up. The frontend is crafted using React.js and Tailwind CSS for a seamless user experience, while the backend utilizes Node.js, Express.js, and MongoDB to manage authentication, course content, and user data. Key features include user registration, course enrollment, progress tracking, and content management functionalities.

Using : React.js, Tailwind CSS, Framer motion, Node.js, Express.js, MongoDB

Report Web App — AI-Powered Report Generator

An advanced full-stack web application designed to generate smart, AI-powered reports with intuitive user experience and responsive design. Integrates both OpenAI and Gemini AI for dynamic data interpretation and summary generation. The app supports user authentication, real-time processing, and robust database operations with Neon and Drizzle ORM. Emphasizes clean UI using Shadcn, Preline, and Tailwind CSS.

Using: Next.js 14, Tailwind CSS, TypeScript, JavaScript, OpenAI API, Gemini AI, Drizzle, Prisma, Shadcn, Tabler Icons.

Experience

Frontend Developer

Heltech IT Services — Sep 2024 – Dec 2024

- Developed responsive web pages using HTML, CSS, and JavaScript based on UI/UX designs.
- Collaborated with backend developers and designers to implement dynamic features.
- Gained hands-on experience with modern frontend frameworks and version control.

Frontend Developer

Atomax Tech Service— May 2025 – Present

Project: Feliz.health— Medical Service Booking App

Description:

Contributed as a frontend developer to "Feliz", a medical web application that allows users to book hospital facilities such as OPD, X-Ray, Lab Tests, ECG, and more — directly from home. The platform emphasizes accessibility, responsive design, and ease of use.

Education

SISTER NIVEDITA UNIVERSITY, WEST BENGAL, INDIA

2022 - 2024

- Masters of Computer Application | CGPA: 7.89

UNIVERSITY OF CALCUTTA, WEST BENGAL, INDIA

2019-2022

- Bachelor of Science | CGPA: 7.10

Soft skills

Creativity, Communication Skills, Leadership, Adaptive, Collaborative, Innovative, Curious, Agile mindset
